*All Is Forgiven*, the new release from angelic-voiced and obviously highly trained Ashana, could be titled *A Gift from Heaven*. A deeply moving and emo-

tional recording of breathtaking beauty, the CD carefully balances musical and healing properties.

On this album, co-written and produced by Thomas Barquee (*The Sound of Om* and *Missa*), the two artists create a gentle journey accompanying Ashana's voice with crystal singing bowls and light keyboards. Half of the tracks are contemporary-style songs, such as the moving title track, but Ashana is at her best on the chant-like "Ave Maria" and "Kyrie," two haunting pieces that showcase the vocalist's range in musical prayers.

Ashana is a truly gifted vocalist, and her peaceful style and stunning voice will inspire and comfort. If your customers crave music that takes them to the deepest part of their inner self, then don't pass on the opportunity to share *All Is Forgiven* — it won't disappoint.
